

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

#### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

#### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # FIRE ALARM TELEGRAPH.

Superintendent, JOHN F. KENNAED. Salary, \$2,300, with use of horse and vehicle. He has also the care of all the public bells and clocks. Office, City Hall. [Appointed by the Fire Com'rs.] Operators, Cyrus A. George, Grauville S. Mendell, Charles M. Chaplin, Uzziel Putnam. Salary, \$3,75 per day. Espairers, George S. Thom, Adam McAfee, William H. Godfrey, Salary, \$3.75

per day.

A constant watch is kept at the office, City Hall night and day, by the operators. An accurate account is kept of the time of giving each alarm, and of the station from which it originates. The police officers, and one other person resident near each station, have keys to the Boxes. Alarms are usually given in

about half a minute from the time the Box is operated.

The ringing of the hells and the tapping of the Boxes, each denotes the number of the Station from which the alarm originated: thus,—one blow, a pause, three blows, another pause, and two blows (1-3-2) indicates that the alarm came from Box No. 192. Second alarms are sounded by striking ten blows followed by the box number. Third alarms are sounded by striking twelve blows there; if the entire department is wanted, alarms are sounded by striking twelve blows three times; Return Signal, notice will be given on the bells and gongs, one blow tour times, thus: (1-1-1.) hearing which the several apparatus on the way to the fire will return to their quarters; (2-2) indicates no School; eleven blows indicates Police call; 198 indicates a call from Chelsea for assistance.

### The Meridian Bells.

Fifty-two bells, Sixty large and Forty small gongs, Sixty tappers, and fifteen vibrators, at various locations on Churches, School-houses, Engine houses, and Railroad depots, are struck from the Fire-Alarm Office precisely at noon every day. Correct time is furnished by telegraph from Cambridge Observatory, so that absolute accuracy is secured.

## RUBBER HORSE SHOE PADS.

Nov. 19, 1878

They give a firm, even and natural bearing over the Sole and Frog of the Foot. They prevent Balling up with the Snow, and are the best now in use for Corns, Quarter-cracks, and other troubles which arise from the old method of Shoeing, which gives a bearing only on the outside shell. The bottom or part of the Fad next the hoof is cloth, to prevent drawing or otherwise injuring the foot.

For reference I would name the following persons who are now using my Pads:—Andrew Ward, of the firm of N. Ward & Co.; Lewis Whitaker, Norfolk Avenue; Lewis Hall, Livery Stable, Upham's Corner; David F. Grant, Blue Hill Avenue, Dorchester; George Jones & Co., Harrison Square; Dennis Thompson, Dudley Street, Boston Highlands; D. F. Hall, 3¢ Charles Street.

#### LITTELL'S LIVING AGE.

In 1880, THE LIVING AGE enters upon its thirty-seventh year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent authors, above-named and many others, embracing the choicest Serial and Short Stories by the Leading Foreign Novelists, and an amount

#### Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the foremost Essayists, Scientists, Critics, Discoverers, and Editors, representing every department of Knowledge and Progress.

THE LIVING AGE, is a weekly magazine, giving more than

THREE AND A QUARTER THOUSAND double-column octavo pages of reading-matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a Satisfactory Completeness attempted by no other publication, the best Essays, Reviews, Criticisms, Serial and Short Stories, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical, and Political Information, from the entire body of Foreign Periodical Literature.

It is, therefore, invaluable to every American reader, as the only fresh and thorough compilation of an indispensable current literature,—indis-

pensable, because it embraces the productions of

\$3 per Year, in Advance, Post-paid.

The Congregationalist offers superior advantages as an advertising medium. It is the leading religious family paper in New-England, first-class in all its departments. Its circulation is the largest of any Protestant religious weekly in New-England. Its readers embrace all classes that advertisers may desire to reach.

Its advertising rates are less, in proportion to circulation, than the rates of other leading religious and secular weeklies in Boston and New York.

Advertisers will receive a copy of the paper free, if they wish, during the continuance of their advertisements.

#### ADVERTISING RATES:

Ordinary advertisements, per line (solid agate), each insertion, 20 cents.

Business notices, per line (solid agate), each insertion, 30 cents.

Reading matter, per line (leaded) net, 60 cents.

Cuts, electrotypes, double columns, or retaining any particular page in paper, 25 per cent. extra.

Of agate, 8 words make a line, 14 lines solid or 10 lines leaded make an inch.

\$2.50 Per Year.

The "BOSTON HOME JOURNAL" is the leading FAMILY AND SOCIETY PAPER OF NEW ENGLAND, and we present several reasons why the "HOME JOURNAL" has become so popular and influential.

Because our literary departments are of a high standard, giving a variety that will interest the reader and insure perusal.

Because our society and social news is brief and interesting, and contains nothing that will offend the most fastidious.

Because our Dramatic and Musical departments are the most complete of any weekly family and society paper; our criticisms are just and impartial, and thus valuable.

Because our book department contains Reviews of new publications, which are so written that they are interesting, and are read by our patrons, and consequently are of value.

Because our foreign and other correspondence is from parties who are bright and newsy writers, and make their letters an interesting feature.

Because our contributors are gentlemen and ladies who hold high and important positions, and give character to the paper.

Because we buy the best paper, and publish the best Family and Society paper in New England.

Because WE OCCUPY A FIELD EXCLUSIVELY OUR OWN.

# JACOBS' PATENT LITHOGRAM.

Patented in Canada, July 16, 1879. Patent applied for in the United States.

THIS new invention seems destined to supersede any and every other process now known for producing fucsimiles of CIRCULARS, NOTES, LETTERS, PRICE LISTS, Etc. No Press, Ink Rullers. Stencils or Prepared Paper Required. and any boy can operate it with a few minutes' instruction.

#### THE LITHOGRAM

Is well known in Canada, and already introduced in England and Germany, and since its introduction in this city, it has been received with the greatest favor, as shown by the following list of Institutions where it is in use: Post-Office, City Architect, Supt. of Police, Railroad Commissioners, Russell's Commercial Agency, Governor and Attorney General State of Mass., Prison Commissioners, John Hancock Ins. Co., B. & M., Old Colony, and Eastern Railroads, Redpath Lyceum Bureau, and by a large number of leading Lawyers, Merchants, etc.

#### BEWARE OF A SWINDLE.

The Dry Process of Copying, JACOBS LITHIGRAM, was patented in Canada, July lifth, 1879. The records of the patent enabled unscrupulous parties, formerly employed by Mr. JACOBS, to make imperfect imitations of the Lithogram, which they advertise under a dozen different names, such as Hektograph, Ganz. Copygraph, Transcript, Zieber's Multiplying Slate, Nixon's Cheirograph, Copygram, and various "Grams" and "Graphis," all being direct Infringements on JACOBS LITHIGHAM. These imposters claim no rights or patents, but simply make every possible effort to sell their counterfeits before the United States Patent about to be issued by Mr. JACOBS is out, and prosecution commenced. The public is warned that Time and Monzey will be spear freely in finding out every person owning one of these infringements and they will be vigorously prosecuted under the patent law.

Besides being liable to penalty for infringement, all the imitations are inferior to the genuine JACOBS LITHOGRAM, which has been greatly improved by continuous and costly experiments.

Great Inducements and a Liberal Discount to the Trade.

Agents wanted all over the country.

Enterprising men with good business qualifications will find a field of profit and usefulness by securing territory and placing the merits of this new invention properly before the business community. Address.

#### PURE WHITE LEAD

EVER MADE IN THIS COUNTRY.

Their Mills are under the superintendence of Mr. D. G. BATCHELDER, whose reputation as a Lead Manufacturer has long since been well established throughout New-England and New York; and his WHITE LEAD stands unrivalled in this country.

The Salem Lead Company's Lead can be found for sale by the first-class Drug. Paint or Hardware dealers throughout New England, and by many in New York, Pennsylvania, and also in the Southern States.

Its uniform Purity and Brilliant Whiteness are fully appreciated wherever it is used, and these qualities in an eminent degree are achieving for it a success and demand hitherto unprecedented in the Paint trade.

This WHITE LEAD, owing to the great care used in the selection of the material from which it is made, and also in the grinding of the same, is said to wear longer and handsomer, and to present a harder surface to the action of the weather, than most of the Leads now in use.

Its Perfect Purity is Warranted in all cases.

Please see that all Packages are marked SALBM LBAD CO.

#### Chocolate, Broma, and Cocoa Preparations.

An analysis made by Baron Llebig, the famous German chemist, shows that Cocoa and Chocolates are greatly superior to tea or coffee in all the properties which produce a healthy state of the body, and consequently of the mind. Coffee and tea are stimulants which often act injuriously; Cocoa and Chocolate are food which produces blood and celuiar tissue. In its nutritive constituents, Cocoa resembles beef; as an article of diet it exceeds in value milk and wheaten flour. It contains every ingredient necessary to the growth and sustenance of the body. It is universally recommended by physicians as useful to invalids and persons recovering from disease.

Frequent analyses have been made under the direction of Boards of Health and Sanitary Associations in our large cities, to determine the purity of Chocolate and Co-coa Preparations sold in this country. In every instance the articles manufactured by WALTER BAKER & CO have been reported as entirely pure and free from the admixture of deleterous substances.

These goods are sold by all the principal Grocers
